## RELATIONSHIPS THRIVE WHEN NURTURED

Has something driven a wedge between you and a loved one? Perhaps it's a difference in values or a conflict borne out of a misunderstanding. Sometimes having a mediator to bring awareness to unhelpful communication styles and harmful ways of relating can put your relationship on firmer footing for mutual respect and greater satisfaction.

Not everyone can find time for long-term couples or family therapy, but a short-term commitment might be more accessible. NURTURE packages are pre-paid, provide a \$50 savings, and can be renewed.
